Estimated Project Duration: One year Desired Starting Date: January 1999

Project Description

There is a need for a Sheriff's Sub-Station/Command Center in the Mira Loma Community. Mira Loma and surrounding communities have experienced considerable growth over the last five years, and a corresponding increase in crime. The strong rate of growth is projected to continue for the Mira Loma area over the next ten years. Due to the geographic configuration of the county, Mira Loma and surrounding communities are somewhat isolated from existing Sheriff Stations, resulting in long response times. The creation of a Mira Loma Sheriff's Sub-Station/Command Center is consistent with the Mission of the Sheriff's Department and their increased efforts at community policing. It is also consistent with the County General Plan, and Mira Loma Neighborhood Plan.

The Project:

PHASE 1: Acquire land and design the Sheriff's Sub-Station/Command Center.

PHASE 2: Construct, furnish, and equip the facility.
